If the service type you are interested in is not listed – please ask about other options or variations we may offer.

- **Enquire / engage -** send an email to mint@housley.com.au with a brief description of your requirements.
- To order a Data Centre Networking Housley MINT SKU in CCW, look up SKU: "MINT NEXUS"
  - click "select options"
  - select "DCN Mentored Install Service Unit - Housley or "MINT-DCN-HOU", then input SKU units
- To order a Compute Services Housley MINT SKU in CCW, look up SKU: "MINT COMPUTE"
  - click "select options"
  - select "Mentored Install Service Unit for Compute - Housley or "MINT-COMPUTE-HOU", then input SKU units

MINT Service Inclusions and Assumptions:
- Scope to be agreed and finalised following scoping session between Housley / Partner / Customer
- Housley works alongside partner and/or customer for planning, install and config, prior to training handover
- Services delivered on a remote basis. Onsite service by agreement, with T & E to be costed and paid separately
- "Rack & Stack" tasks are normally performed by customer / partner prior to service commencement (i.e. Hardware, cabling & connectivity to be in-place), with customer or partner to complete pre-install checklist process prior to Install commencement. If this is not possible Housley can provide assistance.
- Housley will work within any project management and methodology framework as defined by the customer/partner. Project management services are not part of the Housley offering.
